This diagram shows the exploded view of the assembly structure. It consists of three long horizontal beams (labeled 1) and five vertical dividers (labeled 3). The beams are arranged in a parallel fashion, and the dividers are positioned between them. Dashed lines indicate the alignment and assembly path for each component.

Diagram 5 shows the top rail being attached to the side rail. Two screws are shown being driven into the top rail, securing it to the side rail. A circular callout with the number 5 is placed near the screws.

Diagram 5 illustrates the step of attaching the front panel to the frame. A circular callout with the number '5' points to the front panel being aligned with the frame. Dashed lines and arrows indicate the placement of screws to secure the panel.

Diagram 5 shows the bottom rail being attached to the side rail. The bottom rail is shown being inserted into the side rail, with a circular callout '5' indicating the step. The diagram shows the bottom rail being attached to the side rail, with a circular callout '5' indicating the step.

*Coloque todos os
tapa furos no móvel
