Se as portas do seu móvel ficarem desalinhadas quando fechadas elas podem precisar de ajustes. Isto pode ser feito como segue: solte o parafuso (w) um pouco. Girando o parafuso (z) no sentido horário ou anti-horário (para dentro ou fora) a dobradiça pode ser ajustada e a porta alinhada corretamente. Se mais de uma dobradiça precisar de ajuste por favor faça uma por vez. Em caso de dúvidas procure ajuda profissional.
