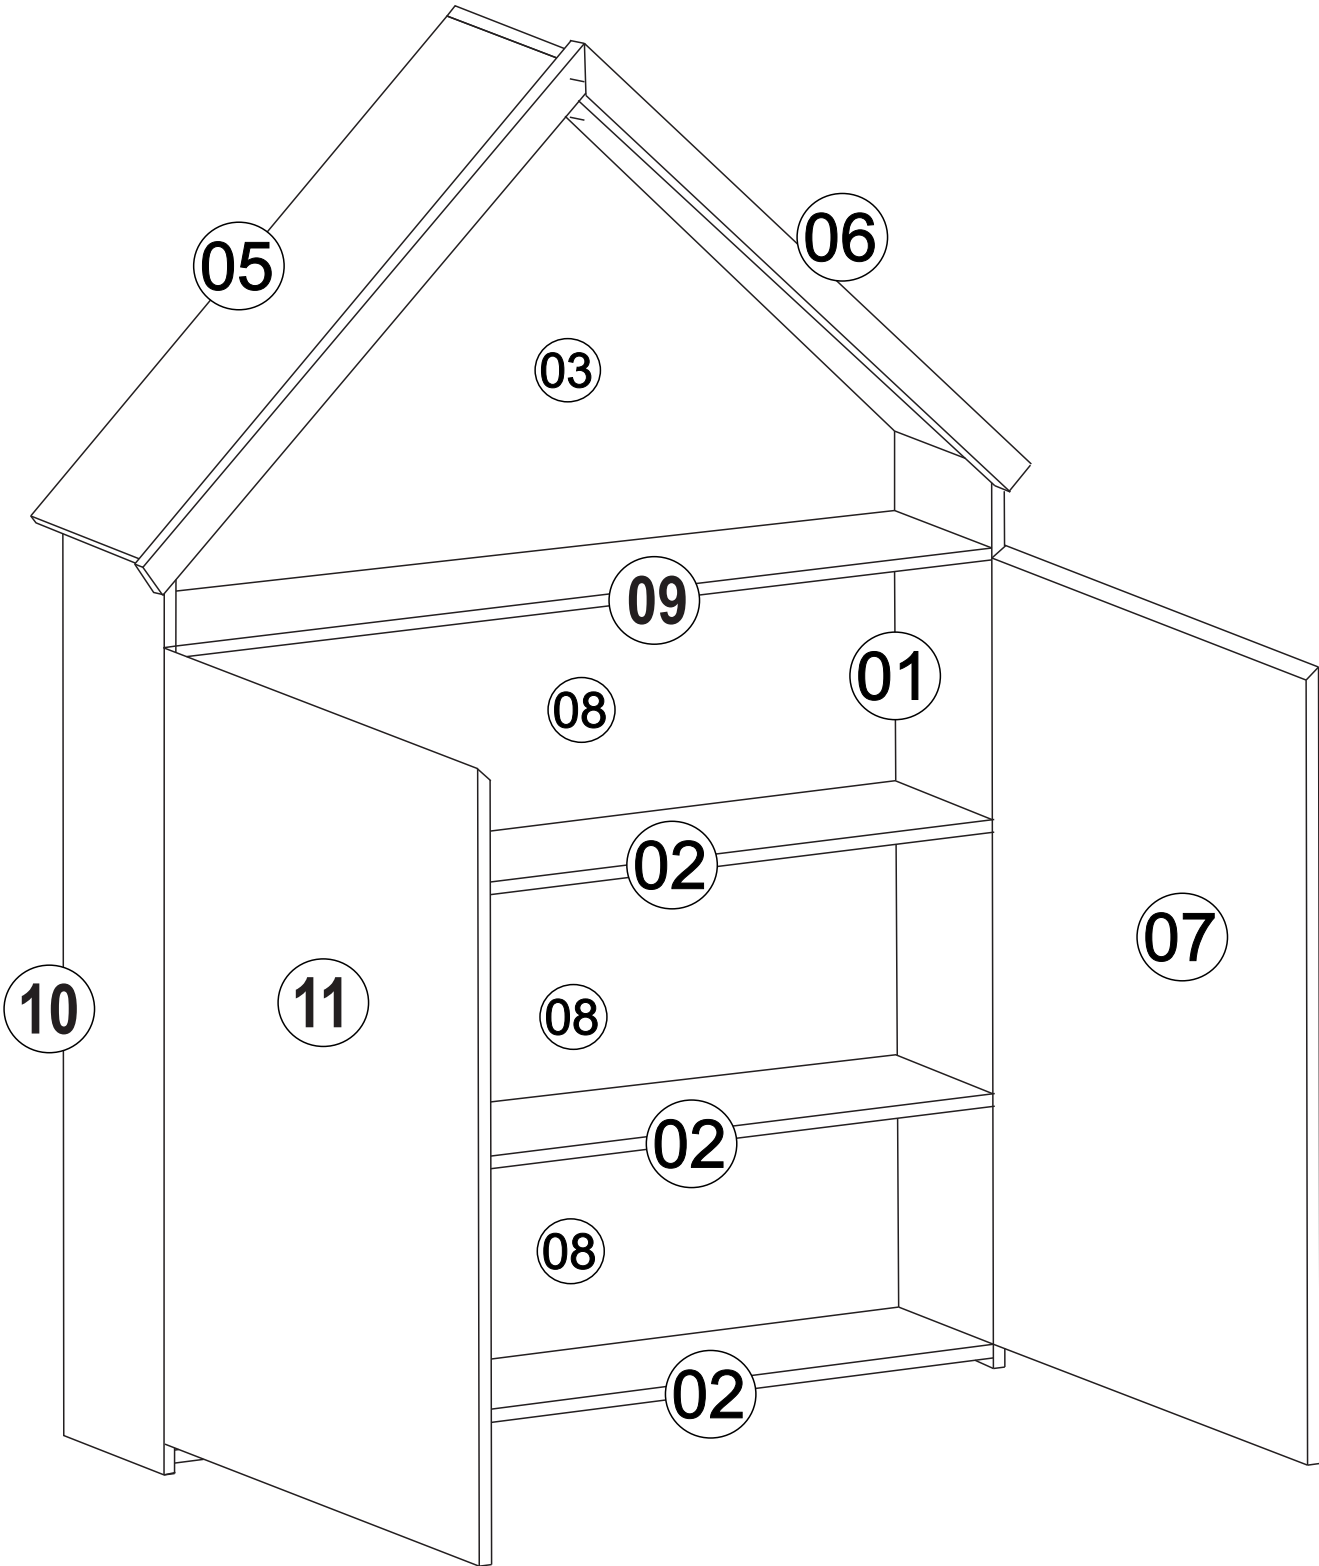

Diagram illustrating a roof joint with a 2° slope. The joint is formed by two rafters, labeled 04 and 05. Arrows labeled B and G indicate forces or movements at the joint.

5°

A line drawing of a corner shelf unit with a gabled top. The shelves are tilted at an angle. A callout line points to the top shelf's support mechanism, and another callout line points to the bottom shelf's support mechanism, both showing a small metal bracket or pin.

Diagram illustrating the assembly of the Porta Puerta Door. The diagram shows the door frame and the door panel. Labels include "Lateral Lado Side" and "Porta Puerta Door". A circular callout labeled "J" points to a specific component on the door panel.
